### **DETAILED ACTION**

The examiner acknowledges the applicant's submission of the amendment dated 9/29/06. At this point claims 1 and 11 have been amended. Thus, claims 1-22 are pending in the instant application.

#### ***Information Disclosure Statement***

As required by M.P.E.P. 609 (C), the applicant's submission of the Information Disclosure Statement dated 11/3/06 is acknowledged by the examiner and the cited references have been considered in the examination of the claims now pending. As required by M.P.E.P. 609 C(2), a copy of the PTOL-1449 initialed and dated by the examiner is attached to the instant office action.

#### ***Conclusion***

##### **A. Status of Claims in the Application**

The following is a summary of the treatment and status of all claims in the application as recommended by M.P.E.P. 707.07(i):

#### ***Allowable Subject Matter***

**Claims 1 and 11** are allowed.

Claim 1 and 11 disclose logical replication system and method comprising a plurality of control units. If a replication of an original volume is created in a logical volume connected to a different control unit, the original control unit creates a

Art Unit: 2185

corresponding virtual volume within the same control unit, and creates an actual replication volume in the second control unit.

McBrearty et al. disclose logical replication system and method comprising a plurality of control units. A replication of an original "local" volume is created in corresponding virtual "local backup" and "remote backup" logically.

However, McBrearty et al. fails to disclose the combination including the limitations of : "wherein the host computer recognizes...created in the logical volume relating to the disk unit connected to the first control unit" (i.e. the host thinks that the replication is created in the first control unit but the replication is actually being created in the second control unit).

As dependent claims 2-10 and 12-22 depend from an allowable base claim; they are at least allowable for the same reasons as noted above.

**B. Direction of Future Correspondences**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for allowance."
